Professional Summary

Enthusiastic and adaptable individual with a keen interest in web development and a strong foundation in software testing. Recently completed a comprehensive one-year program, gaining proficiency in JavaScript, React.js, Node.js, HTML, CSS, C# and SQL, along with a solid understanding of manual testing methodologies and tools. Seeking a web developer position to apply acquired development skills, contribute to exciting projects, and utilize my software testing expertise to ensure the quality and reliability of web applications.

Skills

- JavaScript
- React.js
- Node.js
- HTML & CSS
- C#
- SQL (MSSQL)
- Git
- Github
- Agile methodologies
- Scrum
- Jira
- Trello
- Unity 3D

Projects

- [Virtual Piano](#) (HTML/CSS/JS)
Virtual Piano project utilizing JavaScript, HTML, and CSS. Created a user-friendly piano keyboard interface on a webpage that enables users to play piano sounds by clicking on the keys with the mouse or using assigned keyboard keys. Implemented an interactive and engaging musical experience through the integration of front-end technologies.
- [Gems Collector](#) (HTML/JS)
JavaScript game utilizing the HTML canvas element, featuring a miner collecting gems. This project was completed as a final assignment for a JavaScript class at Bellevue College. Implemented animations for the hero character, moving enemies, and sound effects for interactions with gems, as well as victory and defeat conditions. Created an engaging and interactive gaming experience by combining JavaScript functionality with HTML canvas graphics.
